Scenario

Climate change, pollution, and extreme natural events remain urgent and interconnected challenges. In a volatile global context, the ecological transition is not just an environmental goal—it's a strategic lever for competitiveness, energy security, and technological leadership.

While the EU Green Deal enters a phase of political recalibration, its core frameworks still guide Europe's industrial strategy. Circularity is now a driver of resilience, responding to critical raw material demand and reducing external dependencies. 2025 is a pivotal year: accelerating the circular economy means investing in innovation, infrastructure, and cross-sector collaboration to secure a more sustainable and autonomous future for Europe.

Mission

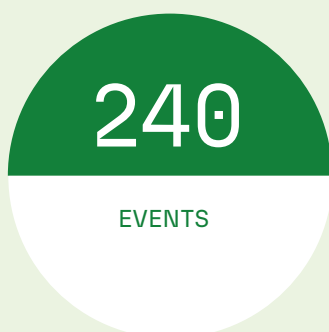

Ecomondo is the ecosystem for the ecological transition—a platform where industry, institutions, policy makers, stakeholders, and local authorities converge to shape and align with the EU's environmental development strategies.

As the leading international event in Europe and the Mediterranean for green and circular economy technologies, services, and industrial solutions, Ecomondo showcases the sector's most advanced innovations.

A hub for research and innovation, it brings together top companies across environmental services and technologies, spanning water management, waste disposal, textiles, bioenergy, soil management and protection, transport, agriculture and sustainable cities.

Why visit

Ecomondo showcases the evolution of the green and circular economy, bringing together institutions, associations, organizations, companies, and start-ups driving the ecological transition.

It's the key platform to explore EU environmental strategies, connect with top players, and stay ahead in the sector.

EXPLORE the latest market trends, regulations, and growth opportunities

DISCOVER breakthrough technologies and innovative solutions

CONNECT with industry leaders, experts, start-ups and rising green entrepreneurs

EXPAND your network and unlock global business prospects

EXCHANGE ideas, best practices, and visionary projects

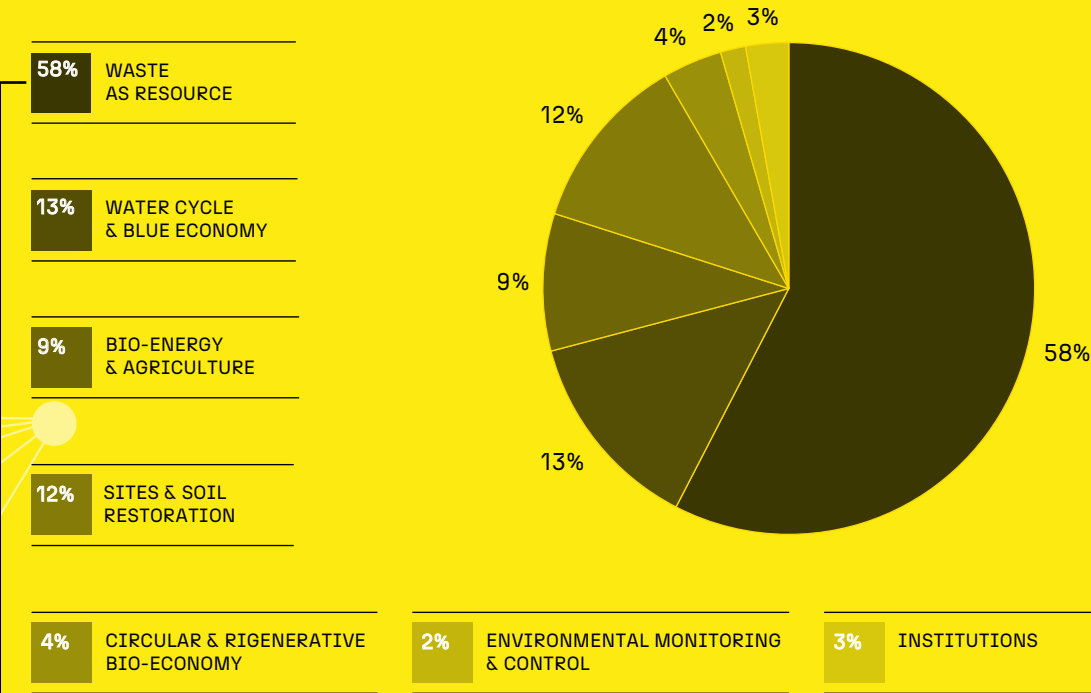

90%

intend to follow up with the exhibitors they met, proving the real impact of networking in initiating promising business negotiations.

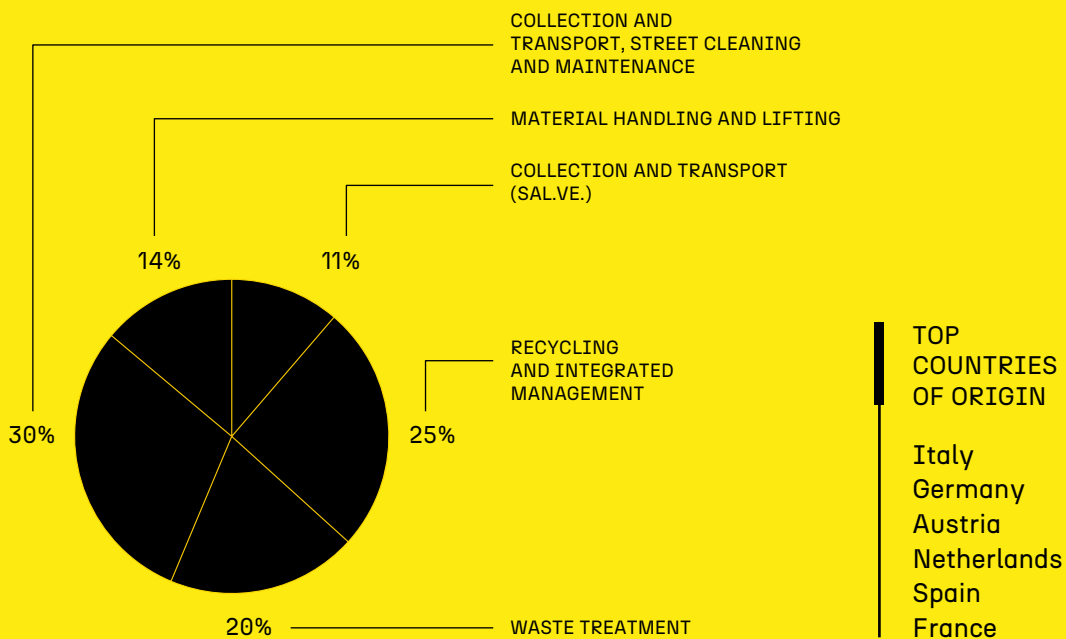

* Data from the 2024 Visitors Survey.

Who you'll meet

From visionaries to problem-solvers, Ecomondo brings together top companies in environmental services, solutions, and technologies. Walk the halls and meet over 1,700 brands from 31 countries across the value chain:

WASTE AS RESOURCE sector breakdown

Why exhibit

Ecomondo is the essential meeting point for companies at the forefront of the green and circular economy. It's where key players at the cutting edge of environmental technologies, circular economy systems, and sustainable innovation meet institutions, investors, and global stakeholders. Exhibiting at Ecomondo means being part of the international dialogue on the future of our planet — showcasing your expertise where strategies are defined, partnerships are born, and the market takes shape.

GENERATE high-quality leads

SHOWCASE your brand innovations and projects in a premier international setting

EXPAND your global reach by entering new and strategic markets

CONNECT with buyers, decision-makers, and partners

STAY AHEAD with insights into trends, policies and best practices

95

Green at the core

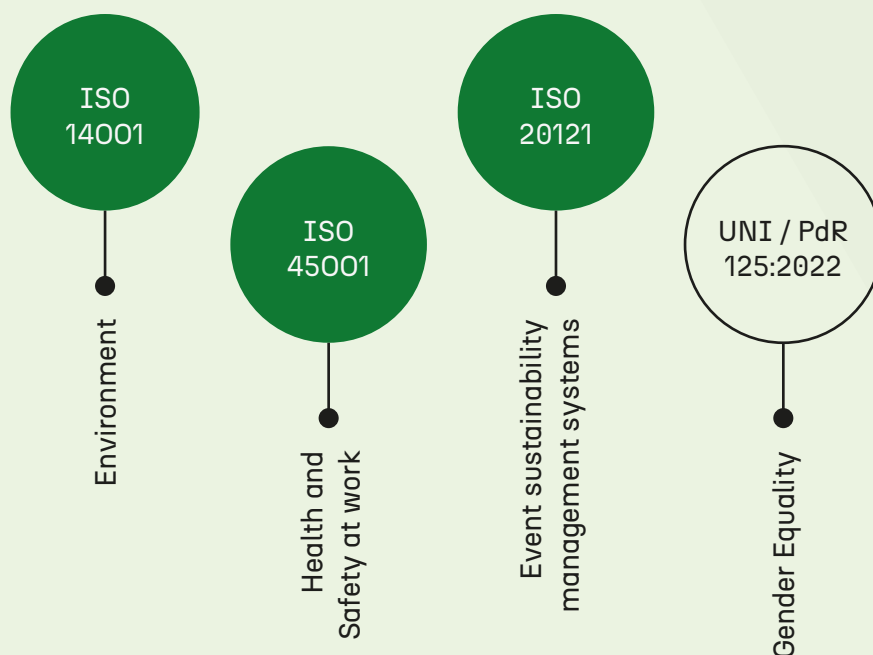

Ecomondo is committed to delivering an environmentally responsible and forward-thinking event experience.

Through strategic initiatives, sustainable practices, and carefully managed structures, we actively reduce our environmental impact. Our commitment extends to forming strategic partnerships and promoting global awareness of sustainable practices, ensuring that every aspect of our operations reflects a low-impact and resource-conscious approach.

BEST PRACTICES

- > Supporting green projects;
- > Fostering environmental education through school and university programs;
- > Promoting gender balance at our events with the “No Women No Panel” initiative;
- > Recovering surplus food to minimize waste and support local communities;

A CERTIFIED COMMITMENT AT INTERNATIONAL LEVEL

* Certifications obtained by IEG Spa, referring to the official recognitions awarded to the organiser for its commitment to quality, sustainability, and event management standards.

Sustainability starts with our venue

The Rimini Expo Centre, where Ecomondo takes place, was conceived and is managed according to principles of low environmental impact. This makes it one of the most advanced and eco-certified exhibition venues in Europe, committed to reducing its footprint and promoting responsible resource use.

BEST PRACTICES

- > No carpet or use of eco-friendly carpets to reduce environmental impact;
- > Zero-waste approach for installations, featuring modular and foldable furnishings;
- > Collection and recycling of cigarette butts to minimize waste;
- > Use of FSC and PEFC certified wood and wood products for sustainable construction;

Rimini experience

Just a few kilometers from the sea and surrounded by stunning landscapes, Rimini combines over 2,000 years of history with modern vibrancy, making it an ideal destination for business and leisure. After the trade show, enjoy exclusive shopping, traditional Italian cuisine, cultural landmarks, and wellness experiences. With excellent transport connections and top business facilities, Rimini offers the perfect setting for networking, relaxation, and inspiration.

Find your
perfect hotel:

Fast track to Ecomondo

Strategically located halfway between Northern and Southern Italy, and connected by an extensive network, Rimini is easily accessible from both within Italy and abroad. Reaching Rimini is quick and simple by car, train, or plane!

Once in Rimini, everything is right at your doorstep, with short distances and eco-friendly transportation options.

Getting to Rimini is easier than you think!

Reaching Ecomondo can't be faster using our non stop flights to Rimini from Munich and Rome. Daily flights with convenient schedules for international connections.

In just 1 hour, you'll be at the heart of the ecological transition!

Find your way:

Book your flight:

BY PLANE

The most convenient airports (though not the only ones):

Rimini «Federico Fellini» International Airport

Bologna «Guglielmo Marconi» International Airport

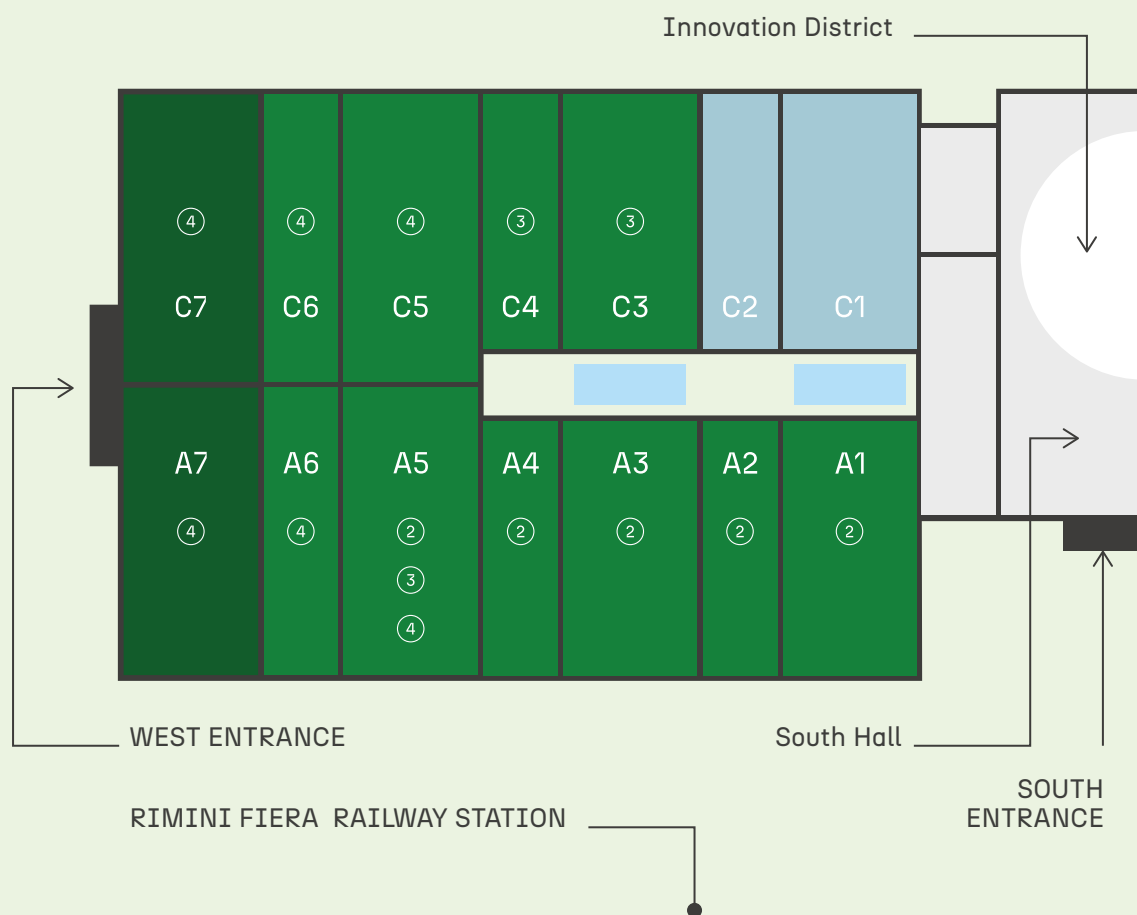

- > A Shuttle Service connects both airports directly to Rimini Expo Centre.

BY TRAIN

Stop at Riminifera station, at 50 meters from the entrance.

Sectors

WASTE AS RESOURCE

1. Recycling and integrated waste management:
 - Technologies, plants and services for urban and industrial waste recycling
 - Integrated waste management
 - Production of secondary raw material
 - Consortia and associations
2. Waste treatment
 - Technologies and machinery for waste pre-treatment and treatment, sorting, and odor control
3. Material handling and lifting
4. Waste collection vehicles & containers, street cleaning and maintenance
 - Waste collection and transport vehicles, containers, technologies and services
 - Street sweeping vehicles and road cleaning equipment
 - Disposable toilets and urban hygiene solutions
 - Sewage suction vehicles and trenchless technologies

SALVE CLEANING AND WASTE DISPOSAL VEHICLE EXPO

- Biennial exhibition of the range of production equipment used by industrial and special vehicles for waste collection and street sweeping

SITES & SOIL RESTORATION

- Remediation and regeneration of contaminated sites
- Limiting land consumption, redevelopment and reuse of brownfield sites
- Environmental damage prevention and emergency responses

CIRCULAR & REGENERATIVE BIO-ECONOMY

- Renewable chemistry: bioproducts, bioplastics
- Ecodesign of products and processes
- Platforms and repair services

EARTH OBSERVATION & ENVIRONMENTAL MONITORING

- Solutions based on AI, Big Data and satellite data applied to predictive models for climate change monitoring, mitigation and adaptation
- Integrated monitoring solutions (water, air, soil, climate)

BIO-ENERGY & AGRICULTURE

- Bioenergy: biomass, bioliquids
- Biogas: processes, products
- Cogeneration
- Precision farming

WATER CYCLE

- Collection, purification, distribution
- Collection, purification and treatment of wastewater for industrial, civil and irrigation use
- Digitisation: water 4.0, IoT, AI
- Water infrastructure management

BLUE ECONOMY

- Ports, coasts, coastal activities
- Cleaning and regeneration of the hydrosphere
- Fishing, aquaculture and marine biotechnology
- Desalination

Districts

CIRCULAR & HEALTHY CITY

This district brings together cutting-edge international projects and solutions for circular, resilient, and healthy cities. It explores how urban environments can evolve through sustainable resource use, clean mobility, eco-construction, and public health strategies in response to climate change.

TEXTILE DISTRICT

The Textile District promotes a sustainable approach to fashion and textile production. It involves all stakeholders in the value chain, from eco-design and recycling to reuse, renting, and second-hand markets, with a strong focus on traceability and circularity in line with EU textile strategy goals.

PAPER DISTRICT

The Paper District brings together players from the entire paper value chain — from collection and recycling to processing and certification — to promote one of Italy's most virtuous circular sectors.

TRENCHLESS DISTRICT

Developed in partnership with IATT, the Trenchless District focuses on no-dig technologies for underground infrastructure. These solutions reduce environmental and social impact during installation or renovation of networks, aligning with the principles of sustainable urban development.

INNOVATION DISTRICT

Ecomondo is reinforcing its role as a catalyst for innovation, offering a dynamic platform where forward-thinking projects meet real-world application. By engaging with the next generation — from Millennials to Gen Z — the event embraces the future of green technology, research, and employment.

START-UP & SCALE-UP

The most promising and innovative start-ups and scale-ups will take part in Ecomondo 2025, connecting with investors, partners, and institutions to accelerate the growth of sustainable business models.

GREEN JOBS & SKILLS

GREEN JOBS & SKILLS

This dedicated area promotes matchmaking between companies and professionals, supporting the development of new competencies for the ecological transition.

LORENZO CAGNONI AWARD

Ecomondo celebrates innovation through the *Lorenzo Cagnoni* Award for Green Innovation, recognizing the most advanced technologies across the exhibition sectors both from Italy and abroad.

PROJECTS

Water Cycle & Blue Economy

The water sector is taking on greater importance within Ecomondo. The technologies on display span the entire integrated water cycle. The leading utilities are present, and workshop areas focused on sharing best practices have been set up.

These halls also host the **BLUE ECONOMY DISTRICT**, featuring solutions for protecting seas and coastlines, and the **TRENCHLESS DISTRICT**, which expands the range with low-impact, no-dig technologies.

Events

At the heart of the event is a cutting-edge program of conferences, seminars, and networking events, designed to explore the latest technological advancements, regulatory developments, and market trends across all major industrial value chains.

Curated by a prestigious Technical Scientific Committee of 90 experts — including leading scientists, industry professionals, policymakers, and institutional representatives from EU and international organizations — Ecomondo's program delivers high-quality, forward-thinking, and globally relevant content, aligned with key European strategies such as the Competitiveness of the European Single Market Act, aimed at boosting resilience, innovation, and sustainable growth across member states.

Contributors include key players from major international bodies such as the European Commission, OECD, FAO, EEA, and ISWA, as well as KICs, top national institutions like the Italian Ministry for the Environment and Energy Security, major trade federations, research agencies, and innovation consortia.

STATES GENERAL OF THE GREEN ECONOMY

The States General of the Green Economy is Italy's leading platform for open, participatory dialogue on sustainable development.

Promoted by the National Council for the Green Economy, in collaboration with the Ministry for the Environment and Energy Security and under the patronage of the European Commission, this annual event provides an authoritative update on trends and priorities in Italy's strategic green economy sectors.

CALL 4 PAPERS

Ecomondo launches its Call for Papers, inviting researchers, professionals, and institutions to submit abstracts presenting innovative research, applied projects, or successful case studies in the fields of the green and circular economy.

The initiative enriches the conference program by bringing new perspectives, technical contributions, and real-world experiences from both the public and private sectors — including universities, regulatory bodies, companies, and civil society organisations.

Key topics

Ecomondo and its events program offer a forward-looking platform to explore the most relevant themes driving the ecological transition. Through high-level discussions, innovation showcases and policy dialogues, the event brings together diverse sectors to shape a sustainable future:

Digitization & AI for ecological transition

Satellite Earth Observation for climate and risk monitoring

Industrial decarbonization: textiles, energy, e-waste, construction

Strategic raw materials: recycling and reuse policies

Sustainable eco-design and packaging innovation

Integrated circular resource management

Water-resilient infrastructures for climate adaptation

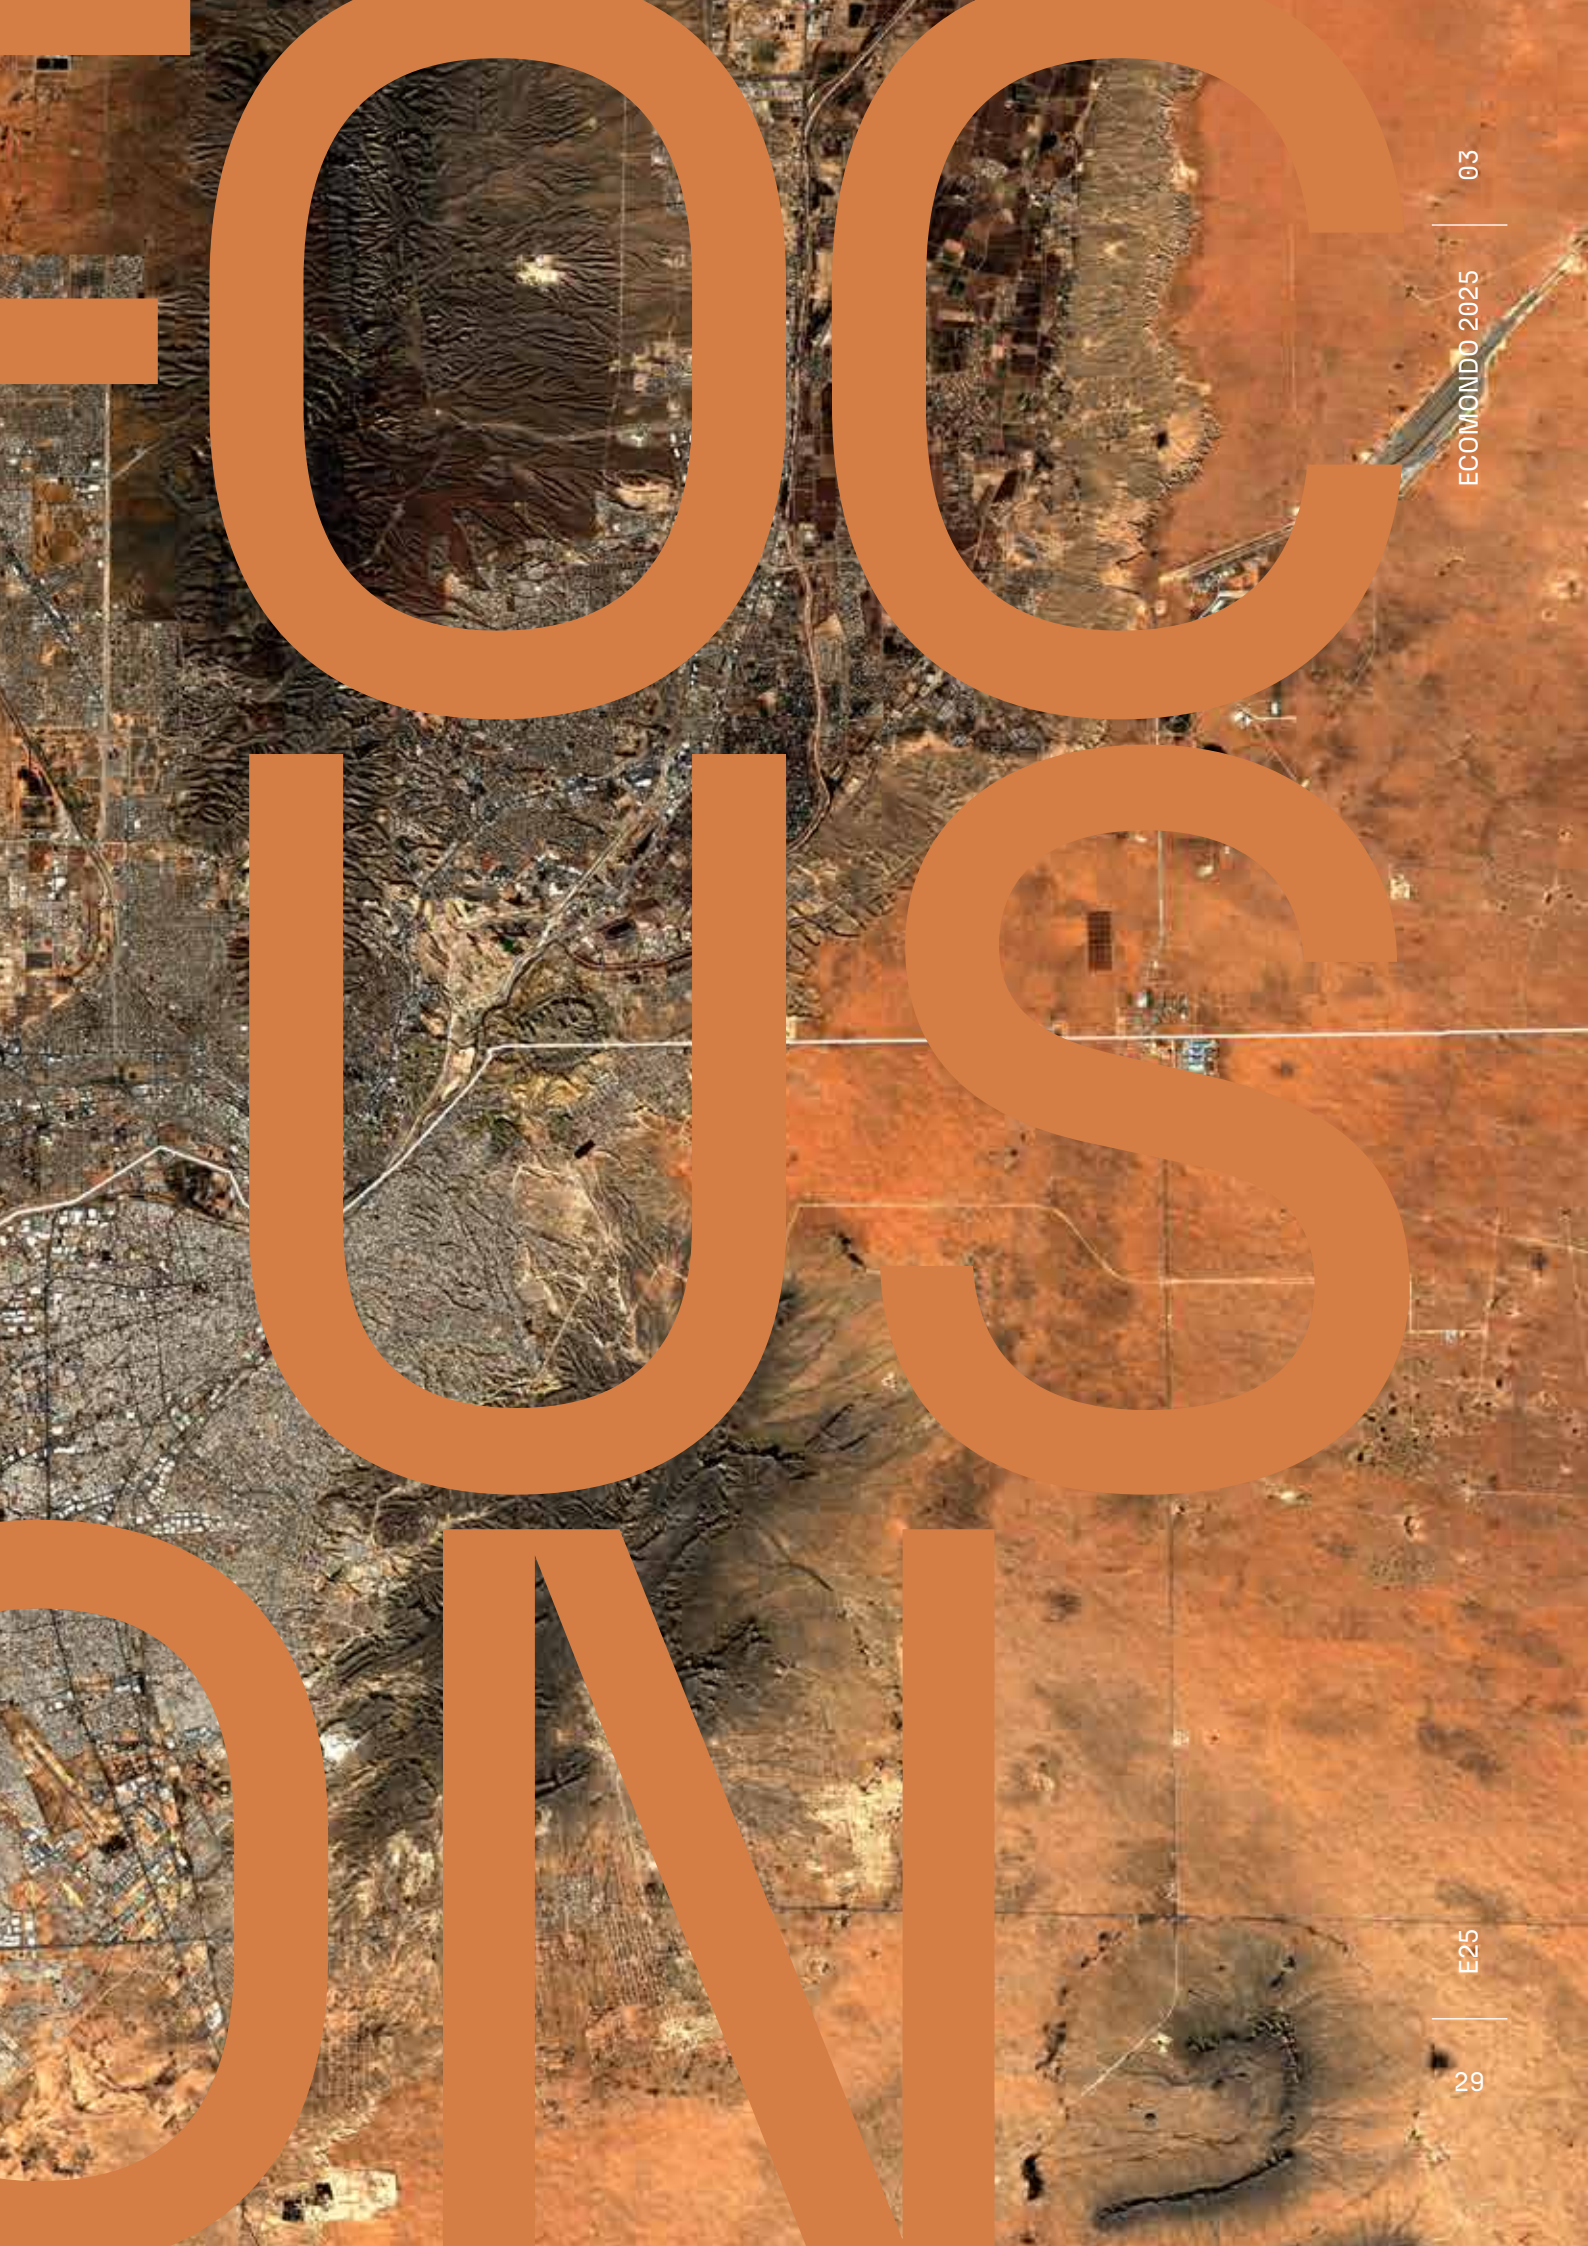

Regenerative bioeconomy: soil, water, biodiversity

Environmental risk prevention and extreme events

Green, climate and biodiversity finance

The green/blue & digital transition in the Mediterranean and Africa

A global community

Ecomondo is more than a trade fair — it is a strategic waypoint on the roadmap to a sustainable global economy.

As a true community catalyst, we have built an international network of events that connects a growing ecosystem of stakeholders, supporting them in working more ethically and responsibly through new digital technologies.

Italian Exhibition Group

With its events, subsidiaries, joint ventures, and platforms for incoming buyers and outgoing companies, IEG has built a global network across 10 countries that attracts, supports, and promotes its key industries:

GREEN & TECHNOLOGY

FOOD & BEVERAGE

JEWELLERY & FASHION

WELLNESS & OUTDOOR

TOURISM & HOSPITALITY

LIFESTYLE & ENTERTAINMENT

INDUSTRIAL

We organize trade shows and conferences in Italy and throughout the world. We bring industries, relationships and experiences together.
We care about the planet.

Italian Exhibition Group (IEG) ranks among the main players in the exhibition and events sector in the world. For over 70 years, it has been organizing trade shows, events, and conferences in Italy and abroad. Its mission is to provide national and international partners with tangible business opportunities, high-value content and services, and networking occasions. Modern facilities, high-quality operations, innovation, strong networking capabilities, and deep territorial connections are the core assets that drive IEG's activities as a key European player. The result is the creation of value for stakeholders by fostering economic growth in the territories and connecting people, ideas, and experiences.
