

# Empowering Sustainable Innovation

Pass2green, your gateway to  
Digital Product Passports

---

## • About us

---

Pass2Green is a digital solution that helps exporters, manufacturers, and institutions comply with the EU's new sustainability regulations through fully automated Digital Product Passports: DPPs.

## • Our Mission

---

Make compliance simple  
Make traceability effortless  
Make sustainability measurable

## • With Pass2Green, you can:

- Create and manage Digital Product Passports: DPP with secure QR codes
- Calculate Product Carbon Footprint: PCF and Life Cycle Assessment: LCA
- Integrate with ERP, PIM, or e-commerce platforms via API
- Access real-time sustainability analytics
- Work across multiple sectors: textiles, electronics, automotive, packaging, cosmetics, construction materials, and more
- Use an intuitive multilingual interface

## • Why It Matters

- Stay ahead of EU sustainability regulations
- Increase product transparency and customer trust
- Highlight your green innovation and corporate responsibility
- Facilitate eco-compliance for exports and partnerships in the European market
